

Monthly Newsletter

A very successful Away day!

on Saturday 11th July the Wickford PCN and practice members came together for a day of education, team building and supporting the building of our integrated network teams. Facilitated by the brilliant Health Integration Partnerships, the network was able to focus as a collaborative unit on their focused priorities, their true values and determine the wider vision of the PCN. i think all who attended this can positively testify to the enjoyment and success of the day!

So herein lies a top priority!

Communication... & delivery of the monthly newsletter!

This newsletter is focused on what's happened so far within the PCN since the new CD and PCN manager came on board...

There are currently many projects running simultaneously within the PCN. Some of these are DES related, some are not. But almost all come with achievement targets and funding implications. This means as a PCN, it's in our benefit to work together and continue in the spirit of collaboration! Here's a list of current projects

Current summary of Projects...

MOLES:

- We now have all moles leads in place;
- Dr at Robert Frew = moles lead GP
- Joseph Onesenadia = Moles lead pharmacist
- Alycia Afriyie = Moles care coordinator
- Charlotte Wigmore = Antimicrobial steward

Monthly Newsletter

INT (integrated neighbourhood team) projects

IFrailty

We have also employed Jodie, our care coordinator, to assist with this piece of work. Jodie will be coordinating care for our frail patients and providing proactive care, linking in with the local stakeholders to build this team around our clinical priorities

BP Clinics

We are scheduling at least 2 health events which we hope to host at the GP surgeries on a Saturday, to invite hard to reach patients for their BP, as well as many various other checks. More details to follow...

Website update

Self referral forms to be added to practice websites to encourage patient signposting and self management. (In progress)

Health & Inequalities - Motivated Minds are working on our proposed activities and we hope this work will begin end of September with campaign resources to share with patients. We will also be inviting elderly and carers to our health event mentioned above.

Social Prescribing Project - As part of the DES we must identify a cohort experiencing unmet needs and access to Social prescribing and look to improve this. The group chosen is elderly and also carers and unidentified carers. These ones will be invited to the Saturday Health events where access to social prescribing will be offered

ARRS Roles regular feature coming soon!
